Take An Action

Our Success Story

Future Experts is an Education Company in Saudi Arabia, which spread across the entire education ecosystem. From schools to skills; Future Experts empowers over **10,000** learners and educators across schools to imagine, think and create a better future.

The purposes of Future Experts Group include provision of core and support educational services. Future Experts is engaged in **establishing, owning, and managing** different levels of **schools**, conducting **research and studies** in educational and training fields, assist in **accreditation** as well as providing training courses and offering educational consultation.

Our presence in each of the education verticals is marked with technology-enabled products, high quality people, structured processes and entrepreneurial leadership that come together to deliver unmatched value. From pre-school toddlers to post graduate students, from core curriculum subjects at the school & college level to vocational & employability skills for young, about-to-enter-the-job-market adults; Future Experts reaches out to the entire education life cycle.

Founded in **1994**, Future Experts started with **Genius Kids Academy**, a Canadian Franchise after school program that offers kids Science, Math and Language skills through usage of computer. In **2001** a **Future Experts Training Center** was established to include soft skills training in business and language. In **2003 Future Experts Kindergarten School** was established to provide education to the kids age 3-6. In **2007 Future Experts Consultation** was born to offer consultation in **ISO** for school in parallel with Tomas Test, Holland Code (**RIASEC**) test and Myers Briggs Type Indicator (**MBTI**) career test. Future Experts is a pioneer in introducing **UCMAS** in the kingdom.

UCMAS is a whole brain development program for normal children aged 4-12 years. It enhances lifetime skills such as concentration, creativity, and listening and photographic memory, to name a few. It enables children to discover and bring out their hidden potential.

It is because of our obsession with high quality in everything we do that Future Experts is fast becoming a single trusted brand that defines Education. In **2014** Future Experts has teamed up with a group of educational experts to provide services as follows:

Educational Consultant

Educational Consultant Services

A-SCHOOL

Future Experts helps schools achieve lasting gains in performance, using an extensive portfolio of proven solutions including assist Underperforming schools to make sustained and ongoing improvement on achievement by using **Future Experts Education Management Program.**

Future Experts Education Management Program

is a change management program that sends a team of education professionals directly to the partnering school to work closely with educators and administrators to develop site capacity. The program operates with a whole school approach, combining leadership development, curriculum improvements and a proven assessment system to target all components of the learning process.

Future Experts Education Management follows these three steps:

Future Experts Education Management Program begins with an end in mind. From the outset, key outcomes are defined that represent the goals, qualities and improvements that a school can achieve by the end of the partnership. These support and enhance the school's needs assessment and development planning process.

Assess & Diagnose

- We offer an array of performance assessments services, including
- Need Assessment Review, School Quality Review, MOE Quality Review and School Management Organization Quality Review, Teachers' Evaluation Review. Each of these review processes may be customized to align with our clients' existing quality efforts or other needs.

Assessment & Diagnose Services:

- Needs Assessment: 360 Degree Diagnostic that identifies strengths and areas for improvement
- Program Evaluation (Reading, Writing, Math, Science)
- Common Core Standards
- School Quality Reviews
- MAP assessment

Planning & Monitoring

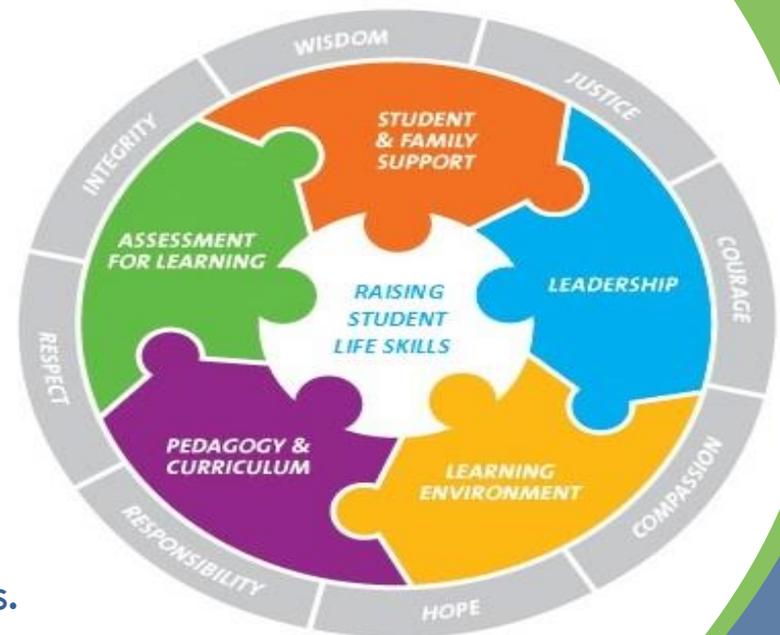

Our Planning and Monitoring Services go hand-in-hand with our assessment services. We conduct School Improvement Planning based on evidence collected through our assessments services. Our improvement plans are simple, achievable and focused on the instructional core. In addition to planning for sustainable change, we help our clients realize new endeavors through School Design and Application Development.

Planning and monitoring Services:

School Improvement program with clearly articulated goals linked to five Pillars and Milestones.

The Five Pillars

We focus our work on five, interrelated pillars that represent the essential support systems that are effectively managed at today's outstanding schools. Our whole school approach is founded on these core values that encourage a positive culture and guide good decision-making: Leadership, Learning Environment, Assessment for Learning, Pedagogy & Curriculum, Student & Family Support.

Planning and monitoring Services:

- Design and application Development
- Curriculum development, teaching In accordance with the system of education in all levels education.
- Manage the translation textbooks, instruction manuals from the English to Arabic and vise versa.

We can support schools with:

Preparation for educational oversight

- Meeting the standards of regulatory bodies of accreditation
- Aligning policies and procedures to legislation
- Quality assurance of programs
- Setting up a new education provider
- Stress management and professional development workshops for staff
- Advising governments on quality assurance in education

Achieve

- Leadership Coaching
- Professional Development

Our achievement services focus on sustainable change. We provide management and staffing for Professional Development Networks that offer a range of services to build and expand school capacity.

We also offer more intensive Leadership Coaching relationships at the higher school levels that build leadership skills through tackling real issues.

Finally, we engage in comprehensive Sustainable Change Partnerships with International well-reputed systems around the world i.e. Finnish Education Standards, Common Core Standards, MAP assessment

If education is all about intellectual and mental evolution, then Future Experts Program is about raising the pace and scale of that evolution and achieving new echelons of success.

The making of Future Experts is a story of building equity across the education value chain; of being the change that is needed in the world of education, to ignite the fire of learning and the desire to teach, impacting entire communities, and changing lives of millions of students, teachers, and school owners and showing

“What Learning Can Be”.
